

Thank you for choosing the 2nd edition of CHEERS. If you have played the 1st edition before, here's a brief summary of the revised/new parts in this edition. In the 2nd edition, we have...

- ▶ renamed some of the game parts and actions.
- ▶ applied more graphics to make the rules easier to understand.
- ▶ invented a new way to draw the **Secret Recipe** (Victory Combination).
- ▶ introduced the situation of a **tied game**.
- ▶ added the rule of **Dual Mode** in the Alternatives section.
- ▶ added the **Recipe Stands** and **Recipe Cards**.

## Recipe Stand

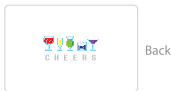

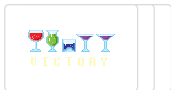

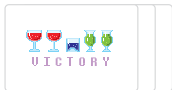

The Recipe Stand makes it easier for players to review their Secret Recipe during the game.

# Recipe Card

To help CHEERS novices enjoy the gameplay without difficult setup, we added 15 **Recipe Cards** (5 sets; 3 cards for each set), so instead of drawing the **Recipe Tokens**, players can also draw the **Recipe Cards** as their Secret Recipe (members from the same team share the same set).

During the game, players can hold the **Recipe Card** in their hand or place it face-down on the table, to prevent others from peeking the content of it. The five ingredients on the **Recipe Card** are what you and your teammate(s) need to collect to win the game.
